

# GANTA BHARGAV

Hyderabad, Telangana, India | +91-6303439658 | bhargavganta7@gmail.com | <https://bhargavganta.online>

## PROFESSIONAL SUMMARY

B.Tech. student in Computer Science (AI & Machine Learning) with hands-on experience across full-stack development, machine learning, and data-driven problem solving. Built a peer-to-peer book resale platform and an end-to-end ML pipeline for placement prediction. Comfortable working across front-end, ML, and DSA-driven problem solving, with certifications spanning cloud engineering, generative AI, and advanced AI/ML.

## EDUCATION

| Course Name            | Institute Name                                   | University / Board Name                                     | Year of Passing | Score (CGPA/%) | Course Type |
|------------------------|--------------------------------------------------|-------------------------------------------------------------|-----------------|----------------|-------------|
| B.Tech – CSE (AI & ML) | CMR Institute of Technology, Hyderabad           | Jawaharlal Nehru Technological University Hyderabad (JNTUH) | 2027 (Expected) | 8.45 CGPA      | Full-time   |
| 12th (Intermediate)    | Sri Chaitanya Junior Kalasala, IDPL, Hyderabad   | Board of Intermediate Education, Telangana                  | 2023            | 97.80%         | Full-time   |
| 10th (SSC)             | Vivekananda Vidya Niketan High School, Hyderabad | Board of Secondary Education, Telangana                     | 2021            | 100%           | Full-time   |

## PROJECTS UNDERTAKEN

### The Book Cycle

Jan 2025 – May 2025

Front-End Web Development — Team Size: 3

- Developed a web-based platform enabling users to buy and sell pre-owned books, promoting affordability and sustainability by connecting buyers and sellers through an easy-to-use interface.
- Implemented responsive design and integrated REST APIs to ensure a seamless user experience.

### Campus Placement Predictor

Python, Machine Learning, SQL — Team Size: 3

- Built an end-to-end machine learning project predicting campus placement outcomes based on academic and skill-related factors.
- Performed data preprocessing, feature engineering, model training, and optimization to improve prediction accuracy.
- Integrated SQL for efficient data management and analysis.

## STRONG SUBJECTS

Data Structures & Algorithms, Machine Learning, Deep Learning, Problem Solving

## SKILLS SUMMARY

**Languages & Web:** C++, Python, SQL, Front-End Web Development

**Machine Learning:** Data Preprocessing, Feature Engineering, Model Training & Optimization

**Cloud & Platforms:** Cloud Engineering, Generative AI

**Core CS:** Data Structures, Algorithms, Problem Solving

## INTERNSHIP EXPERIENCE

### Evolve X Spaces

Apr 2026 – Jul 2026

Full Stack Development Intern

- Contributed to software development and startup projects by assisting in application development, technical problem-solving, and project execution.
- Collaborated with cross-functional teams, learning industry-standard practices and enhancing programming, analytical, and teamwork skills through hands-on experience in a professional environment.

## CERTIFICATIONS

- Smart Coders — Smart Interviews: Structured DSA training and mock interview practice sessions (Data Structures, Algorithms, Problem Solving).
- AI Advance — Hexart.AI: Advanced training in Machine Learning, Deep Learning, and AI Robotics through real-world projects.
- PwC Advisory Launchpad — PwC: Cloud engineering, Python programming, Generative AI, and modern data systems.
